SQUIRE

AI Advisory

AI Strategy and Solutions, Grounded in How Your Business Actually Runs

Squire AI Advisory combines deep business process, ERP, and advisory expertise with hands-on AI experience. We help organizations identify high-impact opportunities, select the right technologies, and implement practical AI solutions that fit the way their business operates today while building a scalable AI strategy for the future.

AI Advisory Solutions

AI Readiness Assessment

Understand where your organization is prepared for AI and identify the capabilities, data, systems, and processes needed for successful adoption.

AI Implementation

Deploy practical AI solutions that integrate with your existing systems and workflows and deliver measurable business value.

AI Strategy & Governance

Prioritize the right AI opportunities, develop a scalable roadmap, and establish governance to support responsible AI adoption.

Our engagements are built as long-term relationships. We stay connected with your team to refine solutions, adapt to changing needs, and identify new opportunities as AI and your business evolve.

A Business-First Approach to AI

With new AI capabilities emerging almost daily, the challenge is separating real opportunities from the hype. The right approach starts with understanding where AI can improve operations, increase efficiency, and deliver measurable results, and where it may not be the right solution.

01

Connect

Understand your business, goals, challenges, and priorities.

02

Discover

Identify where AI can create real, measurable value.

03

Design

Build a practical roadmap and solution approach tailored to your organization.

04

Deliver

Implement solutions that fit your systems, workflows, and the way your business runs.

05

Evolve

Continue optimizing and identifying new opportunities as AI and your business grow.

Why Businesses Choose Squire

Squire AI Advisory combines deep business process, ERP, and advisory expertise with hands-on AI experience. We help organizations identify high-impact opportunities, select the right technologies, and implement practical AI Strategy and Solutions, Grounded in How Your Business Actually Runs solutions that fit the way their business operates today while building a scalable AI strategy for the future.

Business First Approach

We start with your goals and challenges, then determine where AI can create meaningful value.

Business Process & ERP Expertise

Our understanding of business processes, systems, and ERP environments helps ensure AI solutions work within the realities of your operations.

Practical, Measurable Solutions

We focus on solutions that can be implemented, adopted, and tied to tangible business outcomes, not technology for technology's sake.

A Trusted, Long-Term Advisor

Squire's AI expertise is backed by a multidisciplinary advisory team, giving you a partner who understands both the technology and the broader needs of your business.

About Squire Advisory

Squire Advisory combines integrated expertise and hands-on support from trusted advisors across accounting, fractional executive services, business and transaction advisory, technology, and forensic and litigation support. We work alongside organizations to improve performance, navigate complex decisions and transactions, and provide experienced support from strategy through execution so clients can move forward with confidence.
